EDUCATION

University of Central Florida, Burnett Honors College
Bachelor of Science in Computer Science, GPA: 3.89

Orlando, FL
Expected May 2028

EXPERIENCE

Web & App Developer

August 2025 – Present

UCF Arboretum

Orlando, FL

- Reduced website errors by identifying and fixing bugs, increasing user retention by **25%**.
- Enhanced website layout and interface using **Figma** and **HTML**, improving functionality and visual appeal.
- Integrated **accessibility** best practices into web design, improving user experience for all visitors.
- Collaborated within a team of **5** to plan, develop, and implement internal applications to streamline operations.

Design Director

Jan 2025 – Present

KnightHacks

Orlando, FL

- Organized a team of **20+** people using **Notion** and delegated various project tasks involving hackathon needs.
- Revamped website and social media, reaching a following of **2000+** on Instagram and increasing follower count by **75%**.
- Rebranded merch and club websites to be used by **6000+ members**, increasing member outreach by **40%**.
- Oversaw and edited **100%** of graphics and designs, utilizing **Adobe Illustrator**, Photoshop, Procreate, and Canva.

Software Engineer Intern

Jan 2025 – April 2025

ZuLeris Interactive

Orlando, FL

- Developed an electromagnetic warfare training simulation for the **U.S. Department of Defense** using **Unity**.
- Optimized **UI/UX** through intuitive layouts and seamless user flows, enhancing immersion and usability by **15%**.
- Engineered realistic and interactive communication scenarios to improve **10+** users' proficiency and engagement.
- Contributed to improved operational readiness by increasing soldiers' adaptability in electromagnetic environments.

PROJECTS

ShapeShift | *React, JavaScript, TypeScript, Figma*

April 2025

- Participated in **Bitcamp 2025**, creating a full stack web app which converts 2D assets into production-ready 3D models.
- Designed and implemented the **React** based frontend of a dev tool web app that converts SVGs into 3D models.
- Developed a responsive UI/UX using React and **Figma**, enhancing user interaction by **40%**.
- Presented the project to **10+** judges, effectively communicating design choices and functionality.

AiSight | *Python, TypeScript, React Native, Figma*

January 2025 – April 2025

- Placed **4th** out of 15 in **Knight Hacks Project Launch** with accessibility glasses and app for low-visibility users.
- Engineered a **React Native** app to assist the visually impaired, enhancing accessibility through various commands.
- Leveraged **Python** to allow for advanced features, such as gesture commands and object recognition.
- Collaborated with a team of **6**, coordinating frontend and backend development for efficient task distribution.
- Designed an intuitive UI/UX using **Figma**, ensuring a user-friendly experience for visually impaired individuals.

Rock, Paper, AI Sensors | *Python, TKinter*

August 2024 – October 2024

- Developed a game using **TKinter** to introduce **120+** K-12 students to AI technologies for UCF's **Stem Day** initiative.
- Lead the UI/UX design within a team of **4**, appealing to the user base with a **Python**-based easy-to-navigate layout.
- Created both the presentation and portfolio for the project, presenting to **4** different groups of over **30+** students.
- Collaborated with The Center for Initiatives in STEM to organize materials and various schedules for **10+** schools.

TECHNICAL SKILLS

Languages: Python, C, HTML, CSS, JavaScript, TypeScript, C#

Frameworks: React, React Native, Unity, Flutter, TKinter

Developer Tools: Git, GitHub, Visual Studio Code, Visual Studio, Figma, Canva, Adobe Illustrator, Photoshop
